

It is VERY important that K-LOVE is allowed to continue to be broadcast. It informs me of non-profit, Christian events that are offered locally, which is VERY important to me and my family. It would be extremely detrimental to have this programming replaced by a LPFM broadcaster since it is hard to find family-oriented, safe for childrens' ears radio programming. I believe that K-LOVE's services is in the best interest of the public since not all of us want to listen to trash on regular radio stations. Even some of the commercials on regular radio stations are questionable. I had to purchase Christian artist CDs and play them in the car, before being introduced to K-LOVE 3 years ago. PLEASE don't allow K-LOVE to be taken off of the air!
